

NOISE BLACKOUT™ EXTREME AND CRYSTAL CLEAR SOUND

SEAMLESSLY SWITCH BETWEEN YOUR SOFTPHONE AND MOBILE PHONE

The Jabra GO™ 660 is the first *Bluetooth*® headset with Noise Blackout™ Extreme*. Unique amongst wireless headsets, it provides background noise elimination – without any compromise on natural voice quality. Dual microphones, coupled with advanced DSP technology, identify the source of sound – and then enhance your own voice, and obliterate peripheral noise.

Jabra GO™ 660 connects wirelessly to your *Bluetooth*® mobile phone and simultaneously to your personal computer via the enclosed Jabra LINK™ 320 USB *Bluetooth*® adapter. So now you only need one headset for mobile phone calls, PC based telephony, internet radio, music streaming etc.

Designed and developed for the active professional in the office and on the move, the Jabra LINK™ 320 USB *Bluetooth*® adapter is a true plug-and-play device with no driver requirements.

The Jabra LINK™ 320 USB *Bluetooth*® adapter supports Windows XP/Windows Vista/Windows 7 and works with all leading soft phones such as Skype, Cisco Communicator and Microsoft® Office Communicator 2007.

*The actual headset is the same headset as the Jabra EXTREME™.

Jabra GO™ 660 with
Jabra LINK™ 320 *Bluetooth*® USB adapter
