Enjoy a range of telephones based on state-of-the-art technology that will work for you and let you communicate more efficiently.

Gigaset phones are easy to use and deliver all the reliability you'd expect from Siemens. Designed to withstand even the most challenging conditions, Gigaset phones will continue to work even if there's a power cut. They are also easy-to-install and are renowned for exceptional tone quality.

Gigaset

Committed to quality

With our tradition of high quality, we feel responsible for giving our customers only the best products – time and time again. That's why all our Gigaset telephones are thoroughly tested before leaving the factory. So we can sincerely say: no matter which model you choose, you'll be able to trust the reliability and enjoy the benefits of your phone for years and years. Extensive functionality, robustness, and resistance tests ensure we keep our promise to deliver quality. Know you can count on your Gigaset

Protecting the earth

Much more than a trend, at Gigaset our commitment to the environment is here long term. We promise to uphold the strict standards specified in the ISO14001 guidelines for environmental management. Because our concerns about the environment run just as deeply as yours do.
